

2023 Impact Report

NEW THIS YEAR

We expanded our content for EBF3-related individuals and their families and welcomed a 10q26 liaison to the Foundation's team to better support the wider EBF3 community.

We now proudly offer 3 grants:

1. Medical (new!)
2. Community (new!)
3. Travel

This ensures well-rounded support to our global community.

The Foundation expanded the financial giving options to include stock donations.

67

Newly Diagnosed in 2022*

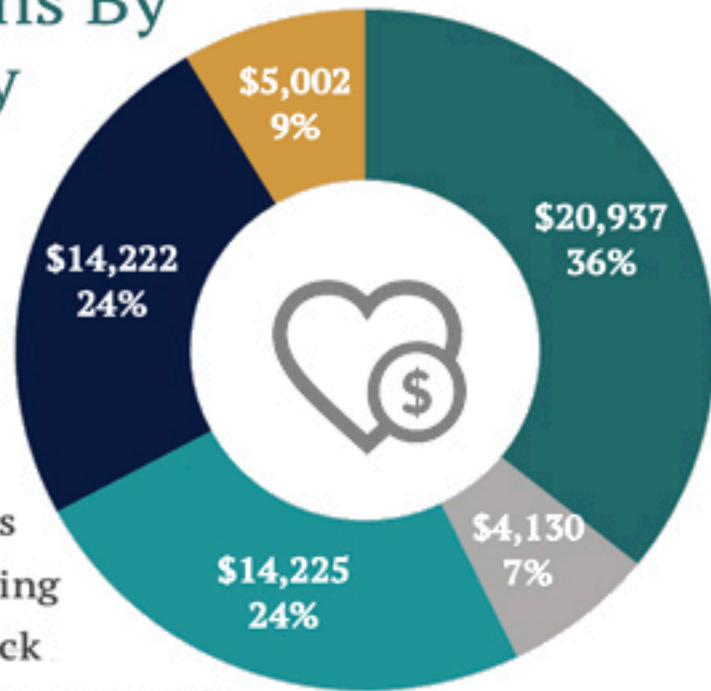

*# is based on community/social/email inquiries to Foundation

“WE HAVE WAITED YEARS FOR A DIAGNOSIS AND LONGED FOR A PLACE OF BELONGING.”

“Words cannot express the joy and disbelief felt when our geneticists shared that there was a finally a match. Joy quickly turned to fear and mixed emotions -- *what does this mean for her future? Are there really more families like ours?!* Within a minute of googling I found the HADDS Foundation's website and the information, resources and seeing real families like ours. It felt like a warm hug and shelter after a long journey.”

Donations By Category Type

- HADDS Run
- Memorial Gifts
- Individual Giving
- Corporate/Stock
- HADDS Awareness Month

Inbound Donations: \$53,514

Outbound Donations: \$56,565

*Conference years are more expensive and are offset by non-conference years. We invested in reusable products & software to keep future events lower cost.

Social Circles

We hosted 63 people total across 5 Social Circles in 2022.

Representation from 8 Countries.

Each event averaged 8-10 families.

“As a provider, I can’t thank you enough for creating the digital education book; it has helped inform my care. To see you have only been in existence since 2019 was surprising given how much information was on the website and YouTube. I found the content helpful and it allowed me to speak confidently about my patient’s needs. I’m not normally one to write, but I wanted to encourage your work.”

BRAVO!
